

Structural 2 Part Adhesives

High Performance bonding products

Our **Structural 2 Part Adhesives** are designed with ease of use and long term structural strength in mind. Capable of bonding to most substrates and even passing through Powder Coat ovens, our products are the ideal solution to replace screws, rivets and welding for a better finished product.

Available in a range of setting speeds, thicknesses and pack sizes we have a product for every application and budget. These products are ideal for Channel Fixing, Big Head Bonding and most structural bonding requirements.

Our MA900 is industry standard for Signage applications where a long term structural bond is needed. We also have 800 and 2020 which are our totally clear products for plastics and glass as well as the ultra fast setting RAPID Pink and Green. For delicate surfaces the LX range offers a unique solution.

Typical Applications

- Locator Bonding
- Sign Fixing
- Pre Powder Coat Bonding
- Metal Bonding
- Jointing
- Automotive and Marine assembly
- Foamex Bonding
- Tray and Pan Making
- Big Head Bonding

The range of **Structural 2 Part Adhesives** offer the following features and benefits:

- Bonds to difficult surfaces
- Totally Clear Products
- Automotive and Marine Grades
- Adheres to most surfaces
- Excellent Temperature Range
- External UV Stable
- Range of Setting Speeds
- Replaces Screws, Rivets and Welding
- High Tack
- High Strength
- Range of Colours
- Pink and Green

Available Formats

- Tubes
- Cartridges
- Drums
- Kits
- Thumb Feed

Typical Markets

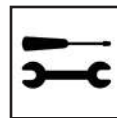

Signage & Display

- Point of sale
- Shop Fitting
- Exhibitions

Construction

- Glazing
- Building
- Cladding

Fabrication & Assembly

- Powder Coating
- White Goods
- Electronics

Transportation

- Automotive
- Aerospace
- Marine

Structural 2 Part Adhesives are part of the huge range of Tapes, Adhesives and Fixings we offer.

The range includes:

- Channel Fixing Tapes
- Structural Adhesives
- Banner Hemming Tapes
- POS Tapes
- High Tack Foam Tapes
- Laminating Tapes
- Optically Clear Tapes and Adhesives
- Fusion and Tensol
- Magnetic Tapes
- Hook and Loop
