

INDASOL[®]
GROUP

PROFESSIONAL BONDING PRODUCTS

The INDASOL Group is made up of three companies who each offer a different element of Industrial Supply Expertise. Industrial Adhesive Solutions provide high performance Technical Tapes and Specialist Adhesives across a multitude of industrial sectors fulfilling a wealth of applications. Avanti Tapes convert a huge range of low tack temporary surface protection films.

With on site conversion, both companies can provide bespoke widths and lengths of tapes, foams and UHB products to suit individual needs. Production Consumables Direct provide the online presence for both businesses as well as additional products such as marker pens, and other associated products.

Based in the heart of the UK and having a presence in Scotland and Ireland, we are well placed to provide expert on site technical assistance, fast turnaround orders from our huge stocks and a professional quality service operating to ISO9001 and ISO14001. Our aim is to offer the highest possible service at the best possible rates and provide a first class experience to all of our stakeholders in our chosen markets.

PROTECTION TAPES

Part of the INDASOL Group is AVANTI Tapes offering low tack surface protection tapes and films across a huge range of industries and applications. Master logs are slit and rewound in the UK to produce finished products in a range of widths and lengths to suit.

Whatever surface you need to protect, the AVANTI Tapes range of low tack surface protection products can cater for all applications. From glass and glazing, granite worktops, automotive interiors/exterior, bright metals, sheet metals, carpets and hard floors, window frames to precious metals, we have you covered. With a complete range of tack levels, thicknesses, and colour choices, we have a product for every surface protection need.

Typical Applications

- Painted Metals
- Marine GRP
- White Goods
- Bright Metal
- Powder Coated metals
- Automotive
- Brown Goods
- Chromed Metal
- Glazing and Glass
- Electronic Screens
- Varnished Woods
- Carpet and flooring
- Plastics and Profile
- Extrusions

The Range of Protection Tapes offer the following features and benefits

- Easy Removal
- Widths and Lengths to suit
- No residue
- Range of adhesion levels
- UV stable for exterior use
- Range of Thicknesses
- Safety backing of mirrors
- Machine Length rolls available
- Reduces Scratching

ADHESIVES & SEALANTS

Adhesives and Sealants covers a vast range of bonding technologies. Thankfully, INDASOL can help you navigate to the product you need.

We offer:

- Hot Melt
- Water Based (D3 and D4)
- Polyurethane (PU)
- Solvent Based
- Welding Cements
- Crystal Clear
- Silicones
- MS Polymers
- SIGNBONDER

Typical Applications

- Product Assembly
- Mirror Mounting
- Exhibitions Panels
- Pre Powder Coat Bonding
- Acrylic Displays
- Joinery
- POS Assembly
- Signage Making
- Foam and Upholstery
- Cladding

The Range of high performance adhesives offer the following features and benefits

- Bonds to Difficult surfaces
- High Strength
- Automotive and Marine Grades
- Liquid, Aerosols and Spray
- LSE Technology
- High Tack
- Excellent Temperature
- External UV Stable

PROTANK

The Indasol ProTank offers the ultimate 'Adhesive per Square Meter' Cost Saving. Through our ProBonder Bulk Range, the Adhesive is simply poured into the Indasol ProTank, and with the fully adjustable ProTank Gun, applied to your substrates for the optimum bond. Available with 20LTR and 40LTR Adhesive Storage capabilities, the Indasol ProTank is the future of volume Contact Adhesive Application.

Key Features:

- Easy Set Up and Use
- Fully Adjustable Spray Pattern
- Fully Adjustable Air/Adhesive Ratio
- Re-Useable
- Up to 30% 'Adhesive to Square Meter' Cost Saving compared to Standard Canisters
- Available with Non-Chlorinated ProBonder Bulk Adhesive

- Dichloromethane Free
- Fully self contained system
- Fast Bonding
- Instant Grab
- High Solid
- Low Odour
- Polystyrene Compatible
- High Gloss Mist Spray
- + Much More

To Compliment the MARKET LEADING INDASOL Range, we offer ALL Accessories:

- Premium Gun's
- Hoses
- Spray Tips
- Cleaning kits

TensorGrip

TUSBOND

The Professional Choice

INDASOL are proud to be a Master UK Distributor for Quin Global, and the TensorGrip Brand. Manufacturing 'Adhesives That Outperform', Tensor have built their reputation on understanding the materials, applications and processes of the key markets they serve. Through key distribution partners such as INDASOL, they have combined a passion for innovation with decades of engineering expertise to develop a Spray Canister System that promises improved results and reduced production time from DAY ONE. With On-Site Training throughout the year at Quin Global's Centre of Excellence, at INDASOL we have the tools and expertise to offer unrivalled technical support for the TensorGrip Brand.

With a Brand built around the notion of being 'The Professional Choice', TuskBond are at the forefront of the UK Contact Adhesive Market. As a Platinum Distributor, INDASOL offer the COMPLETE TuskBond Range of Products, and with Full Technical Control and continuous work on Product Development, the TuskBond range of Products continues to grow. TuskBond's mission is to enable users to select and develop the best products for their business from skilled and technically trained distributors such as INDASOL at a competitive price, as well as offering fast, accurate, ergonomic and portable adhesive systems with a range of Products built on the principle of quality and consistency.

When selecting any adhesive system from either of the above leading brands, INDASOL are able to specify, stock hold and manage the process from start to finish. Being totally independent, we can ensure that you get the right product for the task at within the budget that suits.

2 PART ADHESIVE

Supplied in a range of formats, our 2 Part Structural Adhesives offer similar levels of bond performance to our UHB Tapes, but in a liquid form, so easy for Joining, or building up bond lines.

Typical Applications

- Locator Bonding
- Sign Fixing
- Pre Powder Coat Bonding
- Metal Bonding
- Joining
- Automotive and Marine Assembly
- Foamex Bonding
- Tray and Pan Marketing
- Big Head Bonding

Structural 2 Part Adhesives offer the following features and benefits

- Bonds to Difficult surfaces
- Totally Clear Products
- Automotive and Marine grades
- Adheres to most surfaces
- Excellent Temperature Range
- External UV Stable
- Range of setting speeds
- Replaces Screws, Rivets & Welding
- High Tack
- High Strength
- Range of colours
- Pink and Green

@ UHBTAPE

An extremely high strength bonding tape made from 100% acrylic. Basically, high strength adhesive on a roll. These are by far the strongest tapes on the market and can in some cases replace rivets, screws and welds and even pass through powder coating.

Typical Applications

- Channel and Rail Fixing
- Tray Making
- Cabinet Making
- Stiffener Bars
- Joining
- Automotive Assembly and Fixings
- Pre and Post Powder Coat
- Glazing

UHB Tapes offer the following features and benefits

- Bonds to Difficult surfaces
- High Strength
- Replaces Rivets, Welds, & Adhesive
- Automotive and Marine Grades
- Cold Stick Technology
- External UV Stable
- Over Printable
- Range of Thicknesses & Widths
- Excellent Temperature Ranges
- Totally Clear Products
- Cost and Labour Savings
- Powder Coat Products

TAPES & FOAMS

The INDASOL range of Tapes and Foams is extensive. From Transfer Tapes for next to no gap lamination, to foams that expand to fill gaps in construction, or double sided tapes for bonding paper to metal or even a single sided high temperature masking tape, we cover it all.

Converted from master rolls, most of our single and double sided products can be produced in widths to suit your needs. We can also offer longer length bobbins and spools in some grades as well as bespoke die cut shapes.

Coated with a range of adhesive technology, we can offer almost any of our products (Tissue, Filmic, Foam etc), with any adhesive system to suit the end application.

Typical Applications

- FSDU Display Bonding
- Trim Fixing
- Panel Fixing
- Laminating
- POS Assembly
- Semi Permanent Displays
- Trunking/Extrusion
- Banner Hemming
- Perm Peel Mounting

The Range of Tapes and Foams offer the following features and benefits

- Bonds to Difficult surfaces
- Excellent Temperature range
- Automotive and Marine Grades
- High Tack
- Range of Carriers
- External UV Stable
- Permanent and Peel-able

FIXINGS

To compliment the amazing range of INDASOL Tapes and Adhesives, we also represent three superb fixings brands as well as our own re-positionable tapes, Magnetic Tapes, Hook and Loop and Mushroom Lock.

SNAPFIX

SNAPFIX is a strong and durable locator system designed for holding signage and panels to vertical surfaces. The male dome is made from acrylic and sits snugly into the female cup to create a solid fixing that can be removed and replaced several times if needed.

simpleFIX

SIMPLEFIX is similar to SNAPFIX in its application and operation, but works on a tower stud instead of the dome style. This means a slightly stronger fixing, so ideal for areas where change is less frequent or members of the public could pull signs/panels as it offers greater resistance.

button-fix

Button-Fix is a unique fixing system that works with a key style fixing. The system is accurate and easy to use and provides a very robust and strong fixing system. Applications include Signage, Exhibitions (panels and furniture), Flat Pack Furniture, Sanitary Walls, Inspection Panels, Marine, Shop Fitting and many, many more. Available as screwed or bonded solutions, the Button-Fix range caters for all applications and materials.

Typical Applications

- POS
- Exhibitions
- Window Displays
- In-Store Displays
- Vehicle Signs
- Furniture
- Built up letters
- Exterior Signage
- Temporary Promotions

The Range of fixings offer the following features and benefits

- Easy Removal
- Range of fixing options
- Repositioning
- Fast Promo Changes
- Instant Grab
- Strong Bond
- UV Stable
